BlueZest
MORTGAGES

Internet banking is becoming the norm and more people are going paperless every day. We think our mortgage process should follow suit.

Callcredit are one of the UK's leading credit referencing agencies and hold the license to offer the MOGObankconnect service in the UK. You can find more information at: www.callcredit.co.uk

The information we receive is categorised, allowing us to reach our decision more quickly.

Access to the information expires after 5 days. All that kept is a summary breakdown of your transactions, which you receive a copy of, and this remains in your file for six years after the end of your mortgage.

A dedicated, single use App keeps your information safe and prevents it from being seen by any third parties.

A new, innovative method of sharing your transaction information with BlueZest.

Available on PC's, Tablets and Smartphones using the link in the email or through the AppStore/GooglePlay.

Only you and your bank account share your login credentials, all we see is your transaction information.

Entirely digital, which takes you less time and better protects your information.

The information we receive is encrypted meaning only we can see it.

No need to print, scan or post. Saving you time and money!

If you have any questions regarding this stage of the process, or any other stages of the application, please don't hesitate to contact us at: enquiries@bluezest.com However, if you don't want to use this method, you can still send us a copy of your bank statement in the traditional way, in the post or attached to an email. Please be aware that using the traditional methods will increase the time it takes for us to complete your application.
